- Immediate reports
- Scientifically proven
- Completely computerized
- Multimedia & interactive
- User friendly
- English & foreign languages
- Easily exports data
- Standardized & paperless
- Touch screen option
- Useful for all ages & cultures
- Engages the physically challenged and examinees with special needs

Automated Operation

SpecialtyAutomated™ introduces the first and only rapid and fully computerized Dynamic Visual Acuity Screening Test to provide instant scores, reports, and feedback through a unique software application.

The National Academy of Sciences reports that dynamic visual acuity (DVA) is "...most predictive of real-world task performance..." Contrast sensitivity and DVA, combined, are recommended for a stronger measure of daily visual acuity. Several studies show that dynamic visual acuity is a reliable predictor of crash probability when compared to static visual acuity.

Reduce wait time. Automate your office today.

*Start improving road and transport safety now
by rapidly screening drivers for
dynamic visual acuity using the DVA-DMV-07
by SpecialtyAutomated™.*

Screens

- Contrast sensitivity
- Integrated distances for far, near, & intermediate acuity (left & right eyes, binocularity)
- Night dynamic visual acuity vision optional
