

ONLINE DRIVER'S LICENSE DYNAMIC VISUAL ACUITY TEST MODEL DVA-DMV-08

*Rapid, sensitive, and Internet-based Dynamic Visual Acuity screening test
for Driver's license offices and other transport agencies*

**No software. No CD-ROMs. No downloads.
No vision testers. No vision screeners.
No special or heavy equipment. No hassles.
Test in 5 minutes or less.
Simply click and connect.™**

Benefits

- Completely online
- Very fast, objective, & sensitive
- Self-service option
- Instant scores & feedback
- Records, prints, & saves results
- Graphics & statistics of data
- Scientifically proven
- Multimedia & interactive
- User friendly
- Many foreign languages
- Easily exports data
- Touch screen Sytotechnology™ option
- Standardized & paperless tests
- Useful for all ages & cultures
- Satisfies vision assessment component of Automated Driver's License Test
- Ideal assistive technology
- Optimized for repeated administration
- Compliant with 21 CFR Part 11,
- HIPPA, ICH GCP, & ISO 9001:2000

Online Testing

This is the first and only rapid and *fully web-based* Dynamic Visual Acuity Screening Test to provide instant scores, reports, statistics, and feedback through a unique application that enables simultaneous review and comparison of data between agencies in real time.

NASA incorporates Dynamic Visual Acuity (DVA) measurements for space travel applications. The National Academy of Sciences reports that dynamic visual acuity is "...most predictive of real-world task performance...." Contrast sensitivity and DVA, combined, are recommended for a stronger measure of daily visual acuity. Several studies show that dynamic visual acuity is a reliable predictor of crash probability when compared to static visual acuity.

Reduce wait time. Click and connect your office today.

Start improving road and transport safety now by rapidly screening drivers for dynamic visual acuity using the DVA-DMV-08 by SpecialtyAutomated™.

Screens

- Contrast sensitivity (" fog vision ")
- Integrated distances for far, near, & intermediate acuity (left & right eyes, binocularity)
- Night dynamic visual acuity vision optional
