- Instant scores & feedback
- Immediate reports
- Scientifically proven
- Completely computerized
- Multimedia & interactive
- User friendly
- English & foreign languages
- Easily exports data
- Standardized & paperless
- Touch screen option
- Useful in a combat zone
- Engage the physically challenged and examinees with special needs

## Automated Operation

SpecialtyAutomated™ introduces the first and only rapid and *fully computerized* Dynamic Visual Acuity Screening Test that provides instant scores and feedback through a unique software application.

The National Academy of Sciences reports that dynamic visual acuity (DVA) is “...most predictive of real-world task performance...” Contrast sensitivity and DVA, combined, are recommended for a stronger measure of daily visual acuity. Several studies show that dynamic visual acuity is a reliable predictor of crash probability when compared to static visual acuity.

*Reduce wait time. Automate your office today.*

*Start improving military safety now by rapidly screening the dynamic visual acuity of your recruits and soldiers using the DVA-MIL-07 by SpecialtyAutomated™.*

## Screens

- Day and Night dynamic visual acuity
- Integrated distances for far, near, & intermediate acuity (left & right eyes, binocularity)
- Contrast sensitivity
