

# ONLINE MILITARY DYNAMIC VISUAL ACUITY TEST MODEL DVA-MIL-08

*Rapid, sensitive, and Internet-based Dynamic Visual Acuity screening test  
for militaries and other agencies*

**No software. No CD-ROMs. No downloads.  
No vision testers. No vision screeners.  
No special or heavy equipment. No hassles.  
Test in 5 minutes or less.  
Simply click and connect.™**

## Benefits

- Completely online
- Very fast, objective, & sensitive
- Self-service option
- Instant scores & feedback
- Records, prints, & saves results
- Graphics & statistics of data
- Scientifically proven
- Multimedia & interactive
- User friendly
- Many foreign languages
- Easily exports data
- Touch screen Sytotechnology™ option
- Standardized & paperless tests
- Useful for all ages & cultures
- Satisfies vision assessment component of Automated Driver's License Test
- Ideal assistive technology
- Optimized for repeated administration
- Compliant with 21 CFR Part 11,
- HIPPA, ICH GCP, & ISO 9001:2000
- Usable in combat zones

## Screens

- DVA & Contrast sensitivity
- Integrated distances for far, near, & intermediate acuity (left & right eyes, binocularity)
- Night dynamic visual acuity

## Online Testing

This is the first and only online dynamic visual acuity screening test product for militaries. Instant scores, reports, statistics, and feedback are provided through this unique web-based application that enables simultaneous review and comparison of data across the world in real time.

NASA incorporates Dynamic Visual Acuity (DVA) measurements for space travel applications. The National Academy of Sciences reports that dynamic visual acuity is "...most predictive of real-world task performance..." Contrast sensitivity and DVA, combined, are recommended for a stronger measure of daily visual acuity. Several studies show that dynamic visual acuity is a reliable predictor of crash probability when compared to static visual acuity.

This test effectively reduces wait time and costs associated with administration of other vision tests.

**Reduce wait time. Click and connect your office today.**

*Start improving military safety now by rapidly screening the dynamic visual acuity of your recruits and soldiers using the DVA-MIL-08.*
