

MEDICAL VISION SKILLS SCREENING TEST BATTERY SOFTWARE by SpecialtyAutomated MODEL SVS-MEDI-07

Rapid, sensitive, and computerized battery for clinicians, physical & occupational therapists

**No paper. No downloads. No vision testers.
No vision screeners. No special or heavy equipment.
No hassles. Use your own computer.**

Features

- Very fast & objective
- Sensitive & standardized
- Self-service option
- Instant scores & feedback
- Immediate, detailed reports
- Scientifically proven
- Completely computerized
- Multimedia & interactive
- User friendly
- English & foreign languages
- Easily exports data
- Paperless
- Touch screen option
- Useful for all ages & cultures
- Engages the physically challenged and examinees with special needs
- Satisfies vision component of Automated Driver's License Test

Screens

- Contrast sensitivity
- Night visual acuity
- Stereopsis
- Optional color perception
- Static visual acuity
- Sign recognition
- Solar glare recovery & night glare recovery
- Weather vision & wind vision

Automated Operation

SpecialtyAutomated™ introduces the first and only fully computerized package of static visual acuity (SVA) screening test products for hospitals, clinics, and rehabilitation centers. Instant scores and feedback are provided through a unique software application.

This battery effectively reduces patient wait time and equipment costs associated with manual and semi-computerized vision screening tests. Importantly, it enables staff to dedicate valuable time to other tasks. This is the only battery that contains solar glare recovery, night glare recovery, weather vision, and night glare vision.

Contrast sensitivity and SVA, combined, are recommended for a stronger measure of visual acuity. This screening battery is a significant improvement over the Snellen Eye Charts of the 1860s and the vision testers of the 20th century. It is also designed in accordance with International Council of Ophthalmology standards.

Automate your office today. Screen your clients for driving ability now.

Start screening and monitoring patients now using the SVS-MEDI-07 by SpecialtyAutomated™.
